Professional Experience and Curriculum Vitae
Illustration, painting and design get fused in spontaneous, chaotic and strident way to wake up us from a sedative and superficial world. Textures and colors wrap us in the visual saturation commonly used to dazzle, and to create dreams, desires and insecurity.
I was born in Argentina in 1977, there I studied graphic design and started to work as freelance in this field. In 2000 I moved to Madrid where I worked as art director, freelance illustrator and I also began being interested in painting.
I have shown part of my work in visual projects, books, magazines, a couple of small solo shows, and I toke part in some art group exhibitions in different parts of the world. Like: Colors Notebook, it was part of "Fabrica: les yeux ouverts" intinerant exhibition at Centre Pompidou in Paris, Triennale di Milano and Shanghai Art Museum. And "ROJO(R)SMART: Open your mind" at Ivaliden1 Gallery in Berlin.
