and more..

Awards and Accolades
...Creating tension and stillness with lines and surfaces...

I extract a line from a number of lines seen in reality, then use that line to form shapes in my creation.
The directions of lines and orientation of split surfaces both have power. They create a tension, both trying to expand their own territories while restraining each other.
Whenever I am trying on colors, then finalizing them, a view of the world with a dignified air arises.

Awards and Accolades
PRIZE/SELECTED
2011
Rooms Magazine Issue 07?London?
