Professional Experience and Curriculum Vitae

10FOLD is a digital creative agency. We work toward realising the marketing and advertising objectives of our clients to ensure a stronger brand and identity, while enabling specific technologies and methodologies that streamline business processes in order to increase revenue and market share for our clients.

Our team is structured to communicate, orchestrate and deliver the best possible results to our clients with ease and efficiency. We are essentially geared toward closing any gaps between creative and technical aspects for projects that save time, money and heartache with what we know is the clients key asset - the brand.

10FOLD seek to understand your business and improve it via custom built solutions that may include all or some of our service offerings. While new media is a focus we operate across all media channels so that integrated campaigns are as much a part of what we do as an initial website or logo.
