Professional Experience and Curriculum Vitae
Hello, my name is Charlie Burger A.K.A Charlie Montagut and i'am a french interactive director based in Paris.

My previous work experience and studies led me to a knowledge of motion design, graphic design, but also flash developpement. I use to code in as3 and stilll use it to present advanced demo to clients or for freelance projects.
I'am just in love with interaction design and aware of developpement possibilities, that's why i'am always trying to explore the best possibilities for a project as simple as it seems.
