Professional Experience and Curriculum Vitae
Painting to me is something that I need to do everyday, it makes me feel alive and connected. To me painting is like life, it forces you to have the courage to take risks, to be curious and willing to make mistakes and learn from them. And above all else it requires immense patience and confidence.

My main medium is Acrylic but I've also used charcoal, pastel, watercolor, oil and ink in my acrylic paintings. I hope you enjoy.
