Professional Experience and Curriculum Vitae

Creativity, thinking outside the box, perhaps even going against the grain at times is all part of who I am. As a design professional, I utilize refined aesthetic ideals, technical ability and simple communication to get things done. Perhaps my greatest strength is that I am both a proficient graphic artist and seasoned web developer. My curiosity with technology and desire to learn new things enables me to live in both worlds. Thirteen years of industry experience helps too.

Previous Clientele

Disciple, Embellish, Faber/Castell, Big Honcho Media (Mirror Mirror Movie, Lorax Movie, Simon Shuster), Revolution Wraps, Aly & Dylan's Photography
