Professional Experience and Curriculum Vitae
I Provide Media That Matters.(TM)

Does your company need buzz generated in the media? Is writer's block currently preventing you from publishing? Have you ever considered having your events transcribed into articles?

@.l.interpretations is a comprehensive B2B experiential marketing & media services consultancy that can transcribe the content from your events into articles.

Build credibility as a Thought Leader instantly as you build content in the media through your events. See for yourself how your brand can increase in search rank through publicity. The more articles produced for your brand can become eBooks. How does 'Author' sound in addition to your current titles? [Yes, that's plural. As entrepreneurs, how can we not wear more than one hat?]

Enjoy the exclusivity of sharing in a Thought Tank news desk that caters only to thought leaders and increasing their brand awareness. If you've got relevant, value-based content to share, use it to increase brand awareness through events, podcasts as well as through print and online media.

Contact me today to find out how your brand can not only increase its reach, but add more trust and credibility.

You're welcome.
