Professional Experience and Curriculum Vitae

My name is Flavia, I was born and raised in Mexico City where I studied graphical design (Universidad La Salle). I also love traveling and living abroad where I studied illustration, first in Barcelona (Escola Massana) and then in Paris (École nationale supérieure des arts décoratifs).

I consider myself a versatile illustrator. I have been developing all kinds of projects like: branding, packaging, advertising, fashion (textile design), apps, book covers, children's books, lettering, posters, character design and illustrations for audiovisual, music and corporate clients. Knowing how to adapt my work for each field.

I have been working mainly in Mexico but I have also developed some projects in Colombia, U.S.A., France and Spain.

I also enjoy making projects for small clients, nonprofit organizations and friends.
