Professional Experience and Curriculum Vitae

I am a mother of two boys, that is why I like to make girly things. I am a graduate of NJCU with a degree in art history. I love and appreciate good design and craftsmanship and collect anything unique and well made. I have way too much stuff for my husbands liking. I endlessly shop thrift stores and yard sales for materials to use in my work. I am a supporter of buying handmade/homemade and I'm proud to be part of the Etsy community.
