Professional Experience and Curriculum Vitae
I'm a Fashion and Lifestyle Photographer, and self professed food nut. You think I'd have been a Food Photographer, but I would be massively overweight if that ever happened. I love photographing Fashion because I love working with other professionals, and working collectively to make something happen. I also love documenting another artist's art and Fashion Photography gives me the license to add my creativity into someone's art and create a really great image. Lifestyle Photography I feel is that fun element always dying to get out for me. The Lifestyle assignments I take are always fun and designed to bring out the best in everyone involved, while creating amazing work.

I went to school at the International Academy of Design and Technology in Tampa Florida, and since then my career has changed along with myself all for the better. I've worked on some really cool projects and I was lucky enough to win a Silver Addy Award at the age of 21. Photography pushed me a lot, and I think that's why I like it so much. There is nothing that is ever the same, and each time you walk off set you know something you didn't before you came to the set. I know I'm young, but I'm here to make good work and keep growing as a person and professional. So take a look at my portfolio and let's get to work.

Previous Clientele
Bobby K Designs, Neutral 7 Media, INSite Magazine, Gainesville Today Magazine, Optiko Zine

Awards and Accolades
SUMMARY

I have worked with numerous commercial, and private clients providing photographic services on a per contract basis. My goal as a photographer is to reach out into the world of Fashion and Commercial Photography to deliver my view on art in advertising.
