Professional Experience and Curriculum Vitae

??I am a very meticulous person and overall obsessed with details, for this reason there is a lot of self-demanding in my work, always oriented to get the highest result as possible in the given deadlines. For this reason I like projects which pushed me to find alternative solutions and create new ways, out of my knowing capabilities, try new technics and apply them thoroughly to improve the visual communication and the effectiveness on the people in every new project. I like variety in unity.

Previous Clientele

Playstation / HBO / Tous / Sony Channel / Volkswagen / Barclays / Essie / Timberland
