Professional Experience and Curriculum Vitae
I´m a Graphic Designer and Artist based in Santiago, Chile.

I have explored for more than ten years various visual art disciplines such as painting, graphic design (creating several websites, corporate identity imagery, editorial projects, etc) and illustration.

I´ve been blessed with the opportunity to live and travel in South America, and I also lived several years overseas mainly in New Zealand, Australia and Indonesia. I love to travel and explore new cultures that enrich my creative process.

Spirituality, religion & Yoga, as well as landscapes and seascapes are my sources of inspiration.

Please take a look at my website www.vastmind.com and follow me on facebook www.facebook.com/vastmind so you can take a look and share more of my work.
