Professional Experience and Curriculum Vitae
Art project Shinobi is a creative collaboration of two artists - visual artist Mike Zubik and calligraphic artist Ulia Kuznetsova.

The project started as the base for development of creative ideas of two stylistically different artists. Mike and Julia share similar approach to the visual solutions as well as identical views on the creative process. They are experienced in several creative spheres, but singled out two main directions in their own works - form and expression. Inspiration with Asian culture has become the essence of all Shinobi artworks. Both artists point out the huge influence of Asia on the contemporary worldwide culture.

Resorting to different styles and materials, the artists worked out a unique style of their own, which is based on elements of traditional fine arts and calligraphy, airbrushing, spray painting, and the elements of digital painting.

Shinobi now is a whole lab of work with objects and spaces. Artists work on different projects and demonstrate actuality of forms and images in absolutely different cases. From paintings and objects to projects in the area of interior and environment decoration.

Recently Shinobi have widened horizons and made a step further. They started the brand of unique originally designed clothes, inspired by their art.
