Professional Experience and Curriculum Vitae
I create art because I want to have a conversation through the experience of my artwork by the visual representation of my thoughts. Using different media like video, canvas, pictures, paper or even a stage I open a window to show my world. I like to use the language of colour to shape my personality in my creations. Much of my recent artwork reflects my background and nature.

With a background of visual communication, I work in graphic designs firms in Mexico City like Impregraphic and Origen. In 2004 he had the opportunity to be in charge of the design department of the Worldwide Association of Mexicans Abroad with offices in USA and Mexico. In 2005 I moved to Canada. In my creative contest I started to performing at events, exhibiting in art shows across the city and volunteering in non-profit organizations

Previous Clientele
Sherbourne Health Centre
SOY (Supporting Our Youth)
Triangle Program
Students Services, Glendon Campus, York University
Artwherk
