## Professional Experience and Curriculum Vitae

BY:AMT is the Brooklyn-based studio of Alissia Melka-Teichroew. Her products are savvy, sophisticated, and witty: the archetypical diamond ring rendered in candy-colored acrylic, ceramic plates folded in easy-to-hold shapes, a mirror that transposes the viewer's face over an iconic image of feminine beauty. This uncanny ability to tweak expectations has delighted design cognoscenti and consumers alike. ID Magazine, Nylon Magazine, and NY Times among many other publications, have featured by:AMT products. Hip boutiques around the world carry them, incl. the MoMA store and Conran Shop.
