Professional Experience and Curriculum Vitae

I am a graphic designer that specialises in brand management. I am based in sunny Durban (South Africa) and run my design studio with a warm heart and a serious love for design. I love visual communication in any form; combining a considered approach with great design. I enjoy working in creative teams.

My portfolio presents a selection of my work as a brand identity designer, however I am also interested in brand management, concept development, communication, website design and online reputation management. I am striving to marry my love for design with web development; finding the harmonious balance between functionality and aesthetic values.

Although most of my clients are Durban-based, the internet makes it possible for me to offer my services to anyone from anywhere. I am more than happy to conduct Skype meeting and to review designs online.

If you'd like to work with me, it'll be a pleasure to hear from you!
