## Professional Experience and Curriculum Vitae

I graduated in 1978 with a degree in printed textile design from Middlesex Polytechnic (previously Hornsey Art School). I subsequently established my design studio and have been designing commercially on a freelance basis ever since, creating original hand-painted artwork for various surface pattern, printed fashion fabrics, printed/woven furnishing fabrics, giftwrap and packaging. I am a member of the East Finchley Open group of artists, this encouraged me to rediscover my original skills to hand paint silks.
