Professional Experience and Curriculum Vitae

I started designing jewelry because I was always finding myself searching for that one unique piece to make an outfit stand out. I have always loved fashion and art. So after years of corporate thinking it was time for a mental vacation. I taught myself to knit, crochet and sew. Then in my search for something to more, I decided to try my hand at jewelry. The result is aphroditesdaydream.

If you see something you like or something you may want to customized; let me know.
