## Professional Experience and Curriculum Vitae

Karen Snave- Illustrator and Graphic Designer

I have been illustrating and designing professionally since 1984. I studied Fine Art at the Chelsea School of Art in London and graduated from the American Academy of Art in Chicago with a degree in Fine Art. I excel in both traditional and digital art, and am proficient in Photoshop, Illustrator and Flash. I am easy to work with, understand what a deadline means and, most importantly, love what I do.

I have illustrated for a number of publishers, ad agencies, gift-ware manufacturers, game developers, corporations both large and small, and am able to adapt my style to suit the needs of my clients. Highly experienced with branded products, I have the ability to retain the integrity of license yet create inspired new directions.

Great design can communicate your message, get you noticed and bring in new business. I listen to my clients and translate their goals into strong design and imagery and make magic happen!
