Awards and Accolades

Established in 2003 by a collective of Sydney artists with their ears to the ground and their heads in the clouds, BABEKUHL is a design graphics studio and lifestyle brand with two simple goals: to innovate and inspire.

Headed by multi disciplinary artists, Billy Ryan, Sam Painter and Patrick Santamaria, the collective have been known to drop science on the street and in the studio. BABEKUHL'S crisp, graphic aesthetic eschews convention by bridging the gap between street culture and fine art. Their legacy to date includes an exclusive self produced range of books, bags, apparel and a vinyl toy range revolving around a cloud named Babu.

In 2009, Babekuhl was ranked by Perspective Magazines "40 under 40" for Asia's top young design talent.
