## Professional Experience and Curriculum Vitae

Hello! Thank you for stopping by my shop. BB LaBoss is Brandy LaBossiere. But who wants to say all of that? You can just call me BB. I have some formal art training but am mostly self taught. I am mostly inspired by old toys, children's things and animals. I make all of my figures out of paper clay and paper mache. Almost everything I make is mixed media in some form because I love everything! Because I do not use molds, each figure will be different even if I am reproducing a piece for you. To me they are all very special and are one of a kinds for this reason.
