## Professional Experience and Curriculum Vitae

I am an artist with a long life experience in painting and drawing and fascinated by all forms and meanings in life.

My artistic education was achieved in an art school of an academic profile.

I have built through years a solid foundation in atelier style training alongside well-known artists and I followed this by a lifetime of experimentation.

Only my art finance my charity foundation " ST. STEFAN " . On this way I stand against the world poorness .In my work i unify the performance with music ,dance ,choreography costumes ,show scripts, poetry ,computer technology and multimedia ,lighting technology and image aesthetics .I have an interest and projects in architecture and interior design.
