## Professional Experience and Curriculum Vitae

Photography has always been for me a fascinating art, a passion ...

Mine is to make people happy, freeze their emotions, their joys so that they become for an instant my light.

I spent nearly 20 years working in fashion business in Paris, Milan, New York, London, Vienna and gained a strong experience in the photography industry.

Arriving in Israel in 2012, I was trained as a professional photographer at the Shmuel Diamond School of Photography, a dream come true.
