Professional Experience and Curriculum Vitae

You would think I would have a brief description about myself and my work all worked up and ready to add to any search engine or new social media site that arises, but it seems that every time I am asked to write a description of myself, either the answer changes or I search to redefine myself. In a nutshell, I love to produce..... period. I love anything related to the outdoors and have for better or worse have evolved to the point where my camera has to be a part of the experience for me to enjoy it. I have an awesome wife who is an amazing cook, and she is lucky that my metabolism keeps me at a mere 140 pounds, no matter what I do or don't do. I have a 10 year old son and 7 year old daughter who are growing up way to fast as far as I am concerned, and one of my greatest pleasures in life is to just sit by a nice fire. At least for today that is who I am. Who knows what I will be tomorrow?

Previous Clientele
