Professional Experience and Curriculum Vitae

Bookmakers Ltd. is an Agency representing Children's Book Illustrators and Artists for over 35 years, as the proud new owner of the Agency I want to showcase Bookmaker's Artists work in more places and to a larger audience.

We don't just make books. We create success stories! This has been and will continue to be a motto that we aspire to as we diversify into other projects, media and deliverables.

Since 1975, Bookmakers has represented a group of the best children's book illustrators in the business and has provided the publishing industry with book design and production services.

Previous Clientele

We've worked with most major publishers and look forward to helping create a success story out of your next project.
