Professional Experience and Curriculum Vitae

I am a recent graduate with a BFA in graphic design and a minor in photography. I started my own business called Dorky Dino, where I design cute characters and have them printed on a variety of products to sell on my website at dorkydino.com. I'm passionate about many different types of art, so I like to try a bit of everything. My favorite is designing characters for Dorky Dino, but I also love graphic design, creative photography, painting with acrylics and watercolors, sculpting, drawing, and almost any creative media I can get my hands on.
