Professional Experience and Curriculum Vitae

I am an advertising creative with 13 years of industry experience in graphic design, and 5 years in writing and creative direction.

I blog and write fiction, and I am published author of a short story collection "Don't Try This At Home".

I would like to connect internationally with creatives, writers, editors and publishers, to find business opportunities and gain new knowledge in the field of advertising and book publishing.

I am comfortable both with Slovene and English (speaking and writing).

I can work both in a team and solo.

Specialties

Thinking up ads ... and stories.
