Professional Experience and Curriculum Vitae

In response to the world catastrophes of the past decade, I have started a website which provides advice from mothers, professionals & religious leaders. With the goal to provide free advice and knowledge to those who have not been so fortunate to have theirs around to guide them through these difficult times. I love writing, photography, painting, running, biking, hiking, my husband, dancing, visiting new places and meeting new friends.

Throughout my life I have been very blessed to receive opportunities which provided me with the means to experience things which I never dreamed would be possible. I have been able to network in circles I never believed I could enter and through this I have come to appreciate every opportunity that life gives me. My latest project, www.Mom-Help.com is not only about free knowledge but about promoting other young professionals in their fields of expertise. I am always open to new ideas and suggestions, so please feel free to visit the site and join the movement.
