Professional Experience and Curriculum Vitae

Cambridge Industrial Design has contributed to success of products across a wide range of markets.

We offer a personal, flexible service tailored to our clients' individual needs, employing the latest CAD techniques for rapid product design and prototyping. We can help you develop your product from scratch or complement your own in-house team, whichever suits your project.

With many years experience Cambridge Industrial Design has a broad range of clients including PA systems for Fender, test equipment for Fluke and camera equipment for Vinten Broadcast.

Extensive links with toolmakers, molders and OEM suppliers in the UK and Far East ensure fast and cost effective manufacturing.
