## Professional Experience and Curriculum Vitae

Currently working in the context of digital creation making real and animated movies that present in many different ways. These movies gather the work or the creativity that I develop in the study while I study, including formats as video art, virtual performance, digital photography / painting (oil - video). Parallel I give courses where I exhibit theoretically and technically proceeds that I develop on having constructed these movies. In addition I give experimental classes of dance, to continue evolving with the workshops of Moving the body, elementary advanced dance, and manage my work of the creative director
