How to make your business card stand out

Get Noticed

A landing page
This is where you really engage with customers: your website, Facebook, Pinterest etc.

Get Social
Give chance to people to talk to you. If you are a restaurant, go on TripAdvisor.

Dedicated page
Targeting a specific audience? Create an informative blog post for them.

Create a QR code
QR code is a great way to save a space. Also, everyone has a mobile device.

Add your best product
Logo is boring. Use the image of your greatest meal, largest property, most beautiful design.

Customised cards
Print business cards for specific events. If you are invited to a iPhone launch event, consider using a similar design.

Print a mini catalog
Consider a mini show-off of your best work. It will certainly stand out from the crowd.

Paper Thickness
Thicker business cards feel more expensive. Most businesses tend to target the "cheap" market, but there isn't much money there, is it?

Collect your success

brought to you by :  MAIL BOXES ETC.
