Professional Experience and Curriculum Vitae

I am an originator of visual scenarios. In my pictures I create compelling settings for adventurous, extraordinary stories. When I make a portrait of a model I strive to not just depict his or her personality, but to release it from here and now and catapult it into a fantastic aesthetic narrative. I act on the same maxim when it comes to advertised products and interior design. My aim is to spot an unknown and unexpected context, discover the extravagant beyond the contemporary and thus capture the attraction of a secret.

To my clients I offer creative services combining styling, set design and photography. These elements complement each other and guarantee a characteristic and coherent overall picture. Thanks to many years of experience as a freelance photographer in the field of fashion, advertisement, journalism and art, my work combines high creativity with unerring efficiency and flexibility.
