Professional Experience and Curriculum Vitae

My name is Cat and I have been telling stories with my camera since I was 14 years old, when my Dad handed down his old Nikon. Skip ahead 20 years and I have a degree in photography, a master's in photojournalism, worked in the MFA photo program at Parsons in NYC and most recently worked as the Photo Editor at a regional lifestyle magazine in Sarasota, Florida.

Now I've finally opened up my own shop as Cat Pennenga Photography, specializing in wedding, family and food photography with an elegant and modern editorial style. With 10+ years of professional photography experience and 4 years of magazine editing and styling, I am ready to capture life's beautiful moments (with style of course). I work out of Sarasota, Florida, serving the Gulf Coast area and beyond and am always up for traveling.
