Professional Experience and Curriculum Vitae

Hey I'm Charlie, thanks for checking out my Creative Finder page!

I'm a 22 year old Digital Editor from the beautiful south coast of England, I spend as much time as possible along the Jurassic Coast, whereby I try and capture the emotive essence of the natural world around me.

I don't call myself a photographer and don't intend on pursuing a career in the field. Just building a portfolio and pushing my creative boundaries hard.

Previous Clientele

The Sun is my most favourable client, followed closely or on an even par with The Ocean.
