Awards and Accolades

The Chopping Block opened its studio doors 1996 with the basic directive of 'World Domination Through Graphic Design'. We're still big believers of this principle and use it to inform every aspect of our projects. Whether creating identities, interactive, or print, we think that intuitive and engaging design should drive solutions, and that good design spans mediums. This design understanding is not only grounded in years of experience, but also deep knowledge of the client, technology, and competitive landscape.

Awards and Accolades

ID Magazine, The One Show, The Cooper-Hewitt Triennial, Flash Forward, CommArts, Young Guns and much more.
