## Professional Experience and Curriculum Vitae

I am a landscape architect from Timisoara, Romania. I'm interested in reviving the urban landscape by maximizing the green surfaces, breaking out of the two dimensions. My degree is in green roofs, at the University of Agricultural Sciences, Timisoara.

I am a co-founder and studio manager of XCEED, a multidisciplinary studio focused on solving IT and advertising problems for its clients. The studio's history proves that impossible is nothing. It manages to be a one stop shop.

I experiment with photography. I'm especially attracted to food and street photography. I read, watch, shoot, listen and learn everyday.

I believe in giving back to society and am involved in volunteering since 2005. I'm an active member of Rotaract Club of Timisoara, an NGO that's making a lot of good change in the western part of Romania.
