Professional Experience and Curriculum Vitae

We're a creative Post Production Studio specializing in Print and New Media. Our core services include colour grading, retouching, visual effects, and compositing and we're fortunate to work with many of the the best ad agencies and photographers in the business. Much of our work can be seen in ad campaigns for major corporate brands and celebrated national magazines.

Our experience in the industry is extensive. We've set many standards in the Toronto market and continue to push our workflow and production quality far beyond the status quo. Solid communication and collaboration with our clients has helped us build lasting partnerships and led to award winning imagery.

By offering some of the most technically skilled and highly creative problem solving in the business, combined with proven technology and a cutting edge workflow, we're awarded projects that are seen throughout North America, Europe, and Asia.
