Professional Experience and Curriculum Vitae

Hello, this is Sreejith, I'm just "Jith" to people who know me. I'm a professional website designer from Kerala, India with more than eight years of experience.

www.CreativeLeaves.com is my online portfolio, I use this site to showcase and bookmark my works. You can learn more about me, the type of work that I do, and the stuff that I talk about.

My main skills are in front end design and development of web sites, using current W3C guidelines for web standards and accessibility. I design websites with great ambitions and use latest web design trends in all my works. My web sites are not only fresh and eye-catching but, for the most part, usable and user-friendly. I love helping companies/individuals to make the most of their Internet presence, sell more products, get their message across, and helping them to become a success in the online world.
