Professional Experience and Curriculum Vitae

Hola! I am Daniela Cabrerizo and I am a diverse graphic designer with experience in several media. My curious nature allows me to live and work creatively and never stop learning. Because my clients are unique, coming from different countries and looking for different solutions, my work has to evolve to meet those needs, which is why throughout the years, I have navigated through different platforms of communication, from branding to motion graphics and web design. Taking advantage of the wonders of technology, I work with clients locally and abroad, giving me the opportunity to communicate to different audiences.
