## Professional Experience and Curriculum Vitae

Dan May brings forth an array of potent imagery from his explorations and documentations of a world somewhere parallel to our own. He wields his ability to transform thought into image with the knowledge of the struggle - the struggle to survive, to be relevant, and most importantly to live not only within ourselves but within a world that sometimes does not make sense. The seemingly playful creatures inhabiting his vibrantly tended palette appear to have the qualities of your typical monster, all the while maintaining a humanity that reflects our own wide range of emotions and imperfections. In essence, May's beasties and evocative scenarios bring to the forefront of the mind the core conflicts of human nature. His artwork has graced the pages of numerous publications, and has been shown in galleries throughout the US and abroad. He has received honors from Communication Arts Illustration Annual and American Illustration. Dan lives and works in Atlanta, GA with his beautiful and inspiring wife Kendal and their feisty bird Jax.
