Professional Experience and Curriculum Vitae

Illustration as modern as today!

Saturday morning cartoons and lounge music, big-time wrestling and creature movies, bowling alleys and the Ramones, kitschy fun parks and flying saucers, diners, Dino-Land, Dean Martin—these are just a few of Daniel's earliest fascinations that continue to inspire his signature Illustration-A-Go-Go! style to this day.

His work has appeared in venues such as MAD Magazine, Topps baseball cards, cookie boxes, in-flight magazines, great metropolitan newspapers, technology magazines and grade school textbooks, iPad apps and more. He's won awards, but then, so has everybody.
