Professional Experience and Curriculum Vitae

Dani Riera, Illustrator. I was born in 1970 in Catalonia (Spain). Since I could hold the pencil, I have expressed myself with the drawing. More than 20 years combining design and illustration. The last 12 years I'm working for clothing brands making artworks, prints, and technical sketches, but my real "live project" calls "D.Land City" and I hope someday it will be real. Now I'm developing a website with the characters of "The City", I call it: DCaricatures and you can find there some characters of famous people from music, cinema, sport, and much more.
