Professional Experience and Curriculum Vitae

My husband and I are both artists. I create purses and bags using American Bison leather. I also do Native American reproduction bead work. Bags, clothing, and dolls. My husband Al Hone has been building custom hand carved furniture for 10 years. Every piece he does is one of a kind and unique. He just recently began sculpting, and has several bronze pieces. Incorporating the artistry he has learned from the many years of sculpting wood, his bronze sculptures are fantastic. This past year we have collaborated on several pieces. Incorporating bead work with the custom furniture.

Previous Clientele

Al has worked with several interior designers around the country. He can create anything a client may want or a designer can dream up. He has wonderful design ideas, and can incorporate art into any interior design. We have our work at the Turpin gallery in Jackson Hole, Wyoming.

Awards and Accolades

Al has exhibited in the Western Design Conference for many years and won several awards. Including, Peoples choice and Best of show. He has also exhibited at the Cody High Style show.

Awards and Accolades
