## Top 5 Moving PROBLEMS and SOLUTIONS

Many people prefer to move themselves, but encounter a number of different problems. Here are the top 5 moving problems and how to fix them!

### PROBLEMS

-  **1** Furniture gets scratched and scuffed up when moving it.
-  **2** Back is sore the next day and/or injured!
-  **3** Box bottoms fall through or break.
-  **4** Items shift and break during transit.
-  **5** Doorways get gouged and scraped.

### SOLUTIONS

-  **1** If your furniture gets scratched and scuffed up when moving it, you need some **Moving Blankets!** They can be attached to furniture to pad them when moving.
-  **2** Is your back sore or injured? You should be using a **Hand Truck** or **Dolly**. These will allow the item to do the heavy moving across longer distances.
-  **3** Box bottoms falling through or breaking? Be sure not to pack them too heavy and to use real **Packing Tape**.
-  **4** Could your items shift during the drive? You should tie down bigger items with **Ratchet Straps** and pack boxes tightly.
-  **5** If your doorways are likely to get scraped by big items being moved, use a **Door Jamb Protector** to pad the sides and prevent gouging.

**READY TO SOLVE THESE PROBLEMS?**
