Professional Experience and Curriculum Vitae

Born and raised in a very diverse college area. I am open and into many forms and mediums of visual art, as well as Sound Engineering, mixing, and recording. I don't have as much time to devote to my hobbies as I would someday want, as I am married to a wonderful photographer- who fills my life with hope and spirit. In my spare time I write poetry, journaling, and sometimes lyrics- although words, I have always felt, are one of my weaknesses. I do much better with music, rhythm instruments, and textures. I play a variety of instruments, but just enough to get by. The computer is my main instrument, especially for my mash-up style dance music. Next would be the drums, vinyl turntables and keys. I was trained as a classical singer, but lost most interest in using my own voice. I do well networking with local musicians for different projects, if need be.

Previous Clientele

Mainly produced instrumental tracks for local hip hop artists. I have always tried to establish musical relationships with people who have a conscious and are mindful of the art they create. Maybe I'm picky, but I do most of my best work if I feel the mission and the message, both.
