Professional Experience and Curriculum Vitae

Initially formed as illustrator and then specialized in concept art and visual development.

I

am particularly interested in environments and props design and in giving them personality

through color and light.

Although I have that as main focus, I still can adapt quite easily and work on different subjects. As illustrator, in fact, I constantly have to draw every kind of thing from characters

and creatures to mechanical objects.

I like to be part of a team, sharing ideas and giving my best to create something new.

I love to play video games, especially RPG, strategic and puzzles, to read young adult novels and watch movies, tv series and animation, I have a passion for plants, quirky animals and mythology.

Previous Clientele

IDEA Academy - SE MA FOR - Art Corgi - Edicart - Mini-School - Edizioni Master -

Gruppo Mondadori - Keit Vimp Bev - Les éditions Clochette - Mascot Books - Panini - Schwager & Steinlein
