Professional Experience and Curriculum Vitae

Emme Hayes is a photographer currently working in Los Angeles. Immersed in the technology industry, the desire to create surfaced as she discovered her passion for photography.

In what would become her first series, an intimate collection of photos documenting families in the final days of the Cabrini Green housing projects caught the attention of local media outlets including the Chicago Tribune and WGN radio.

This love of documentary photography eventually translated into creating fresh, authentic and personal imagery for commercial clients and creatives.

With a naturally alluring aesthetic, Emme's ambition is to produce beautiful, vibrant images that speak to people while connecting them with brands they love.
