### **Professional Experience and Curriculum Vitae**

Currently finishing up BA in Advertising at California State University Fullerton.

Short term goals: enhance portfolio with a range of work in Typography, Illustration, Graphic Design, Page Layout, as well as some Photography and Animation. I am also a beat producer, making instrumentals for Rap/Hip-Hop songs.

Long term goals: continue to expand portfolio; start design agency or become a Creative Director at an agency of choice; carry a plethora of industry experience under my belt while continuing networking with some of the most influential companies across the globe.

### **Previous Clientele**

I have not had the pleasure of working with any renowned clients - most have been friends and family. However, I have done mock projects for major brands as part of class assignments.
