## **Professional Experience and Curriculum Vitae**

Born and lived all my life in Karachi, Pakistan, by profession a web designer, photography is a charm and passion for me. An exhilarating experience going through what it takes, capturing moments and expressions, presenting perspectives that I see

Like many things Art and Beauty is subjective, as they say, and so I believe. The art of expressions and beauty of emotions intrigues me. Scenic beauty mesmerizes me. Nature attracts me. I like to present our rich culture and beautiful heritage out to the world. To showcase the life as we live, but not the one that's presented by the media and perceived by people. There's a lot more to show and bring out that's beautiful and interesting in this land.
