Professional Experience and Curriculum Vitae

Galvanize Design is a creative, multi-disciplined design agency. We specialise in print design, brand identity and digital communication. Our studio is just a stone's throw away from the beautiful Hampton Court Palace in Surrey.

Galvanize is a small agency with big ideas. By collaborating with other creatives and professionals in the industry, we can offer the whole package as a full service agency delivering that bit extra should you require something in particular for your project such as copywriting or photography.

We don't just take your brief and abandon you; we'll work with you closely and due to our small size, you will always work and communicate directly with senior creative talent.

We work with some great people across a variety of industry sectors. Clients frequently use our services again and again and much of our work comes from referrals, a testament to the way in which we work.

If you have a project you would like to talk about please don't hesitate to get in touch, we're always happy to help.
